telecom after market services

DTC - TELECOM

Mobile Networks

DTC Telecom's After Market Services (AMS) business unit supply globally **Spare & Repair** services on a wide range of multi-vendor platforms for installed mobile networks to support Operations and Maintenance.

We support hardware within these network elements:

- Base Transceiver Stations (BTS)
- Base Station Controllers (BSC)
- Radio Network Controllers (RNC)
- Mobile Switching Centre (MSC)
- Gateways
- Peripherals
- Antennas

Key Benefits include:

- Extremely cost-effective unit pricing and CAPEX savings of up to 90%.
- Short lead times
- Immediate global shipping
- Fully warrantied
- Predictive Sourcing / SPMS
- Inventory of 200,000 parts with access to a further 7 million through our partner network

About DTC Telecom

DTC Telecom's three lines of business (**Reverse Logistics, After Market and Technical Network Services**) comprise nine key services that deliver a value proposition built around Telecom Lifecycle Management to the global telecom industry during a time of rapid change and migration to next generation networking technologies.

Our portfolio of services help clients maximise investment recovery from their surplus assets, reduce operating expenses and energy consumption through network consolidation, control Capex on installed legacy platforms, ensure corporate brand protection upon disposal, support wider environmental CSR policies and deliver safe compliant technical network services.

Standards & Key Network Technologies

- 2G GSM, TDMA, CDMA, GPRS, Edge
